Week At A Glance

## From The Director

Dear Parents,

Thank you for your continued support and partnership in the education of your children. A special heartfelt thanks for the great attendance of our recent Bazaar, which unfolded smoothly and positively. In fact, they were a big success as a learning tool for the children.

We wish you a time of peace and renewal over the holidays, whether you plan to travel or stay in Bangalore.

We look forward to welcoming you back on Monday, 26 October.

Kind Regards,

Usha Lamba  
Director

## Inside

News From Classrooms

An update from every teacher on what your children have learned over this week.

An update from the teachers

## Explorers And Adventurers

As children grow and explore they are sure to observe characteristics related to weather or seasons and what better way than to teach them with the help of fun filled songs and rhymes and lots of activities.

Artwork this week was interesting and helped the children understand the three basic seasons of Summer, Winter and Monsoon. The children were really thrilled and enjoyed themselves thoroughly.

Special Thursday was cooking this week and all the children of the class of Explorers and Adventurers got together to make themselves yummy snowballs using delicious and buttery cookies and gooey condensed milk. Greatly enjoyed by all, this fun activity helped them understand the concept of snowballs in the cold days of winter.

Montessori time was filled with exciting activities which included free walking on a

line, identical pairing and pouring of large beans freely from one jug to another.

Funtastic Friday this week was '*In the Sun*'. It was a pleasure to see children come dressed in their summery clothes. While some came wearing smart sunglasses to shield themselves from the hot rays of the sun, others wore their favourite beach swimwear. A little picnic in the sun was a perfect end to this for this fun filled day.

With the October Break starting next week the children are all excited. We look forward to welcoming them back again in the last week of October!

## Discoverers

"I like Winter; Spring is nice; Let's skip Summer and do fall twice and keeping the season concept in mind as a part of the UOI we began another week learning and discussing about different seasons. Children were taught about the different seasons and the types of food we eat and

the clothes we wear and to explain the concept a lot of flash cards were used.

Many worksheets to explain seasons were done in class. Children enjoyed doing matching seasons, sticking cotton on clouds and colouring raindrops. They also did worksheets related to clothes one would wear when it is cold outside.

Artwork included making clouds with cotton, making sunglasses, making ice cream cone. We also discussed little about why we celebrate Dusshera while doing artwork related to the occasion.

Many new songs were introduced like-it is sunny, rainbow song, it is raining from the clouds; I hear thunder, how many colours are there in a Rainbow and many more songs.

Special Thursday was cooking, so children powdered Marie biscuits and mixed it with condensed milk to make small ladoos and then rolled them into a bowl of desiccated coconut and it looked as if they were eating small snowballs.

Stories were told in class which included the lion and the mouse, the tortoise and the hare, the thirsty crow and Lolly's birthday party.

In Montessori children worked with cylinder blocks and frames.

Funtastic Friday was a fun filled day, based on our theme 'out in the sun', organised in school; children came dressed in their favourite summer clothes and accessories.

## Enquirers

The enquirers have been preparing for their first assembly in school with full lung power and enthusiasm. On the day of assembly they were not only eager but also confident about their presentation. They started with the class prayer followed by songs like There was a farmer, Two little apples and Chanda mama. Needless to say they wowed everyone with their act. The UOI of seasons was introduced with songs and art activities.

From finding and colouring hidden bunnies to identifying items used in different seasons and colouring rainbows and creating an ice cream with colourful sprinkles the enquirers delved into most aspects of different seasons. We also painted and decorated for the occasion of dussera.

In Montessori children were taught how to use a rolling pin and with a child friendly blunt knife they cut out the rolled dough; Smell bottles-the objective was to make the child differentiate different kinds of smell.

The children made a lip smacking delicious summer dessert from biscuit crumble and condensed milk with a dash of coconut.

To wind up the weeks fun just before breaking for puja holidays, the children trooped into school in their summer fashion. Colourful umbrellas, hats, goggles and outfits that spelt cool and comfortable were the order of the day. All in all, it was a memorable, fun and happening week for the enquirers.

## Rangers

This week our Rangers learned that seasons are as old as the earth, we tell time by them, plan our calendar around them and look forward to the changes they bring. But where do seasons come from? Does everyone have seasons? How do they vary in different parts of the world? We introduced the children to the two most important events- the rotation of the Earth on its own axis that gives us day and night' and the revolution of the earth around the sun that gives us seasons. Seasons are caused by the tilt of the Earth as it orbits the sun. This phenomenon was explained to the children with the help of multi media presentations on seasons.

Further children were introduced to the climate in Bangalore which is tropical like the other parts of south Indian states.

Children enjoyed solving worksheets and doing art on the UOI. Special Thursday saw the children making rolls out of Marie biscuit condense milk and desiccated coconut and they did relish what they made.

In Science children learnt about clouds, rainbow, rain and air and coloured a worksheet on the same.

In the Montessori area of the curriculum children were given a talk on Behaviour on outings and special occasions, they were introduced to The Subtraction Strip Board, Table Manners Using Eating Utensils, Addition Strip Board And Reading Joining Sounds –Phonic Fun.

Since we are breaking of for Dussera vacation we spoke to the children about the significance of the festival which is

celebrated across India and children decorated the picture of Goddess Durga and took it home on Thursday.

TLC's out in the sun day was organised on Friday and children came dressed in their favourite summer clothes and had a gala time in school. When we get back to school after the vacation we will be introducing to the children the seasons of spring and autumn and will be discussing climate in detail.

Happy Holidays!

Happy Holidays!
